**Action against Discrimination / Civil Society**

Budapest, June 24-25, 2008

**Human Rights Dimension of Segregation**

**Social Dimension of Segregation**

**Education**

**Employment**

**geographical**

**Social**

## Policy reponse !

- Complex answers for complex problems
- Need to address interdependence of problems
- Need to address the link between segregation and low quality (of education, health services, housing etc.)

- Education: ***Ostrava II*** ruling by ECHR; ***case law*** at national level (based on non-discrimination law), future case law of ECJ
- ***Structural Funds***: Main instrument to address segregation in its different forms (education, occupation, health services)
- ***Priority*** to end segregation in “special schools”; focus on ***improving quality*** in all-Roma classes / “ghetto schools”
- Support of ***civil society*** as key instrument (capacity building, monitoring, strategic litigation)
