Equal Opportunity Funding Policy Public Education

■ Background

- De-segregation in public education not always meet expectations of local municipalities
- Access to EU funds by disadvantaged groups very limited – further increase of inequalities

Equal Opportunity Funding Policy Public Education

Solution:

- All developments of public education facilities should focus on equal opportunity aspects and desegregation of disadvantaged, Roma children
- Equal opportunity plan of public education – attachment to all national and EU funds
- Support and approval by independent experts
- Legal background – special paragraph of Public Education Act (105. §)
