Data - stakeholders

- Name (original, English), department, NC/DTF, type
- Contact: address, phones, email, website, person
- Contribution to Decade, other policies
- Activity level
- Principle area of work
- Roma (women) participation
- Basic commitment

Data - projects

- Title, implementer, partners, website
- Priority & cross-cutting areas, type
- Country (cross), location, timeframe
- Budget, donor, non-financial contributions
- Description: problem statement, goal/purpose, objectives, results, main activities
- Indicators, # of beneficiaries (all, Roma/women)
- Roma participation
- Project relations

Assessment

	Indicator/Value	variables involved	0	1	2	3	4	5	weight
1	Involvement of government	Implementer Partners Donor	no participation of government	government is partner only	government is financial/non-financial contributor only	government is implementer only	government is partner and financier/non-financial contributor	government is implementer and financier/non-financial contributor	1.1
2	Decade priority areas	Priority area Cross-cutting topics incorporated Integral approach	other area	priority area(s)	one priority area with mainstreamed cross-cutting	combination of priority areas with mainstreamed cross-cutting	integrated approach without cross-cutting	integrated approach with mainstreamed cross-cutting	0.7
3	Location - community level	Location area Cross-border		community	municipality	regional	national	cross-border	0.7

Assessment

	Indicator/Value	variables involved	0	1	2	3	4	5	weight
4	Demonstrated reduced gap between Roma and non-Roma	Goal/purpose Indicators Roma beneficiaries Roma women beneficiaries	The project demonstrates negative influence to the goals of the Decade	The project does not demonstrate progress towards the achievement of the Decade goal	The project partially demonstrates improvement of the situation of the Roma in the priority areas	The project clearly demonstrates improvement of the situation of the Roma in the priority areas	The project partially demonstrates contribution to the reduction of the gap between Roma and non-Roma in the priority areas	The project clearly demonstrates contribution to the reduction of the gap between Roma and non-Roma in the priority areas	1.4
5	Participation of Roma	Participation of Roma in the project Participation of Roma women in the project	None of the alternatives for both the variables is marked	Minority alternatives marked for one of the variables and none for the other variable	Minority of the alternatives marked for both the variables	Majority (3 or more) alternatives marked for one of the variables and minority alternatives marked for the other variable	Majority alternatives marked for both variables	All possible alternatives marked	1.1
6	Multiplication	Relation of the project to other initiatives	no relation	part of AP	part of AP and other mainstream policies	continued, followed-up or replicated in the country (and part of AP or other policies)	institutionalized in the country (and any of the rest except replicated in other countries)	institutionalized in the country and replicated in several (and any of the rest)	1
